Cut Hive Puzzle 2

Cut Hive puzzles are inspired by the 'Cut Block' puzzles of Japanese puzzle inventor Naoki Inaba. A Cut Hive puzzle consists of a block of hexagons, the 'hive', with different areas marked out using thicker lines. There are two rules that must hold of a completed block.

- 1) Each area must contain the numbers from 1 up to the number of hexagons in the area.
- 2) No number can be next to the same number in any direction, along a shared edge.
