Attention to detail 5: Spot the difference - Words!

Computer Scientists and Engineers have great attention to detail. If they didn't, complex systems like airplanes, cars, and computers would not work! Can you spot the 5 differences between the two images below? Hint: Differences can be subtle and not always where you think they may be!

```
X A T N Y S N P R A B V B A S
T E E H S D A E R P S L Y U G

Spotting differences/bugs helps programmers write better programs and solve problems. The smallest differences may result in major effects so checking for errors/bugs is essential.
